Echelon Analytics Announces Dallas Office Move

DALLAS — Echelon Analytics today announced the move of its Dallas office to the heart of the Dallas CBD. The new office—on the 33rd floor of the Comerica Bank Tower—will serve as the firm’s headquarters and brings the firm closer to most of its Dallas client base. The new address is 1717 Main Street, Suite 3380, Dallas, Texas 75201.

The office move is at once both nostalgic and fresh for Managing Member Barry Bell. “My first office in Dallas when I moved here in the mid-1990s was in this building—then known as the Bank One Center,” Bell stated. “In one sense, the move back is familiar because the iconic building is timeless and unmatched in Dallas in many respects. Yet, it also feels new and exciting because the energy downtown is palpable, especially compared to when I last worked here. I’m excited at the opportunities the move provides our team members and the ability it affords us to interact more organically with our Dallas-based clients.”
